

EVERY GREAT SPEAKER HAS M.A.G.I.C.

That's what makes it possible for them to lead, influence and charm every audience

What do all great speakers have in common?

They speak with authority, inform and convince with clarity, and charm their listeners with sincerity. They have impact that leaves their audiences with clear, memorable and repeatable content.

Above all... they have a coach.

My M.A.G.I.C. method can help you deliver any type of speech or presentation. It is designed to create a performance your audience will experience as Memorable, Articulate, Genuine, Insightful and Concise. This method and its insights have been tested and proven in the classroom and boardroom. They are the fundamental elements of "The Speech Wiz Speaker's M.A.G.I.C. Formula".

As your speech coach, I will guide your skills development so you can...

Make the technical simple

Many of my clients are subject matter or technical experts. They often have a mass of data they are feel compelled to share with their audiences. This can result in a speech or presentation that leaves the audience overloaded and worn out. My speech coaching has proven highly effective in taking the very technical and making it palatable for peer and lay audiences alike.

"...the president of the association told me my presentation was very professional...

All in all Don....you did a great job getting me ready for this.

I just kept focusing on your pointers and it took me through quite nicely!"

Kevin Mathews, Director of Health & Environmental Affairs, Nestlé Waters

Lead with confidence

Effective leaders are strong communicators. They speak with clear, organized and concise thoughts. Most leaders know what they want to say, but don't always organize it for the most effective presentation. With the growing trend in today's workplace of virtual teams and virtual meetings, the ability to get your point across concisely and clearly have become critical to your team's success. My executive clients know how effective my coaching has been in helping them gain the focus and techniques they need to be effective and confident speakers.
